1. PURPOSE

The Credit Points and Student Workload Policy sets out the principles for credit arrangements in coursework academic programs at JMC Academy to ensure:

- Equitable assignment of credit points between units of study in all JMC Academy accredited qualifications,
- Credit points are an accurate representation of student workload,
- Units of study are portable between qualifications, as per course rules.

2. SCOPE

The Credit Points and Student Workload Policy applies to all JMC Academy's Higher Education Programs.

3. DEFINITIONS

All definitions are located in the *JMC Academy Glossary*.

4. POLICY

- 4.1. JMC Academy is committed to deliver qualifications with manageable, fair, and equitable student workload.
- 4.2. All units have assigned credit point values that:
 - 4.2.1. Measure the relative quantitative contribution of a unit to a qualification course, and
 - 4.2.2. Represent student workload (number of hours) required to successfully complete learning activities of a unit to achieve all its learning outcomes.
- 4.3. The Academic Board is responsible for approving all new units and amendments to the existing units including their credit point values.
- 4.4. All unit offerings at JMC Academy will be assigned six (6) credit points unless by approved exception. Any request for exceptions to the credit point standard must provide a rationale and establish compatibility with the standard.
- 4.5. At JMC Academy an Equivalent of Full Time Study Load (EFTSL) of one (1) equates to 48 credit points, typically eight (8) units of six (6) credit points each.
- 4.6. Unit credit point values and their corresponding EFTSL values are set out in the *Appendix 2 – Schedule of Unit Credit Points and EFTSL*.
- 4.7. The standard student workload at JMC Academy is set at 120 hours for each unit of six (6) credit points for the entire duration of that unit comprising contact and non-contact study. It is recognised that the split between contact hours and study time shall differ from discipline to discipline.
- 4.8. The workload specified by the credit point value of a unit is constant regardless of the course and year of a course in which the unit is taken.
- 4.9. Twenty-four credit points is the standard value of one study period in a course, comprising four (4) units of six (6) credit points each. Exceptions to the six (6) credit points units may

exist where applicable however the total fulltime workload remains at 24 credit points per one study period. Any deviations from this value must approved by Academic Board.

4.9.1. The limit of 24 credit points per one study period may be exceeded upon student's individual request when and if approved by the Head of Department.

4.10. Units of study shared across different qualification courses and between different departments must have the same credit point value in every course.

4.11. The relationship between the level of student effort in a unit of study and the credit point value of that unit must take account of all qualifications sharing that unit of study.

4.12. A student must achieve required total number of credit points in a qualification course to successfully complete it as set out in the *Appendix 1 – Schedule of Qualification Credit Points and EFTSL*.

5. RELATED DOCUMENTS
